

H-DEX ULTRA: GOD MODE v4.0

The Ultimate Administrative God-Tier Suite

1. GOD MODE: LOCKDOWN TOOLS

- Internet Kill Switch: Disables all network adapters with one click.
- Hardware Interlock: Lock out USB ports, Mouse, and Keyboard input remotely.
- Defender God-Mode: Force-disable Windows Defender Real-time monitoring.
- Input Device Suppression: Block user interaction during sensitive maintenance tasks.

2. ULTRA INTELLIGENCE & EXTRACTION

- Saved Credit Card Grabber: Recovers payment methods from Chrome Web Data.
- Registry God-View: Manually explore, set, or delete any Windows Registry keys.
- Deep Software Audit: Comprehensive scan of all installed applications and versions.
- Network Mapping (ARP/DNS): View local network topology and DNS cache history.
- Sensitive Doc Hunter: Automated scan for high-priority documents (.pdf, .docx, etc.).

3. PREMIUM VISUALS & PRANKS

- Ultra Matrix Effect: Launches a high-performance, full-screen digital rain simulation.
- Fake Windows Update: Professional masked animation for covert administration.
- Advanced Screen Rotation: 90, 180, 270 degree hardware-level rotation.
- Phishing & BSOD: Professional mock-ups for authorized security training.

4. SYSTEM DEEP-DIVE

- SHA256 Verification: Verify file integrity remotely via hardware-accelerated hashing.
- Scheduled Task Manager: Audit and manage persistence and system maintenance tasks.
- Audio/Visual Dominance: Remote volume and brightness control with precision sliders.
- Event Log Sync: Real-time retrieval of the latest 50 system event records.

STRICTLY FOR AUTHORIZED ADMINISTRATIVE USE ONLY.
